# DISCOVER THE H-SPOT: HUMANESPOT.ORG

HRC is pleased to introduce [www.HumaneSpot.org](http://www.HumaneSpot.org), our new online animal advocacy resource center. We've put together a powerful (and free) set of tools tailored to the needs of animal advocates, including a comprehensive database and other resources hand-picked by the HRC staff.

Together with launching the new website, HRC is committing time and energy to constantly developing a stream of new and relevant information tailored to the needs of animal advocates. Through HumaneSpot.org and our new blog, *Humane Thinking*, animal advocates will have access to expert analysis and opinion.

If you're an animal advocate, we know you're already **smart** and **compassionate**. We're here to help you be more **effective**. Visit [www.HumaneSpot.org](http://www.HumaneSpot.org) today and register for free access.
